Preface to the 3rd Edition	XV	Contributors	XVI
1 The Ophthalmic Examination.			2
<i>Gabriele E. Lang and Gerhard K. Lang</i>			
1.1 Introduction	2	1.9 Examination of the Cornea	7
1.2 Equipment	2	1.10 Examination of the Anterior Chamber	7
1.3 History	2	1.11 Examination of the Lens	7
1.4 Visual Acuity	3	1.12 Ophthalmoscopy	7
1.5 Ocular Motility	4	1.13 Confrontation Field Testing (Examination of the Visual Field)...	9
1.6 Binocular Alignment	4	1.14 Measurement of Intraocular Pressure	9
1.7 Examination of the Eyelids and Nasolacrimal Duct	5	1.15 Eye Drops, Ointment, and Bandages	9
1.8 Examination of the Conjunctiva	5		
Eyelids (Palpebrae)			12
<i>Peter Wagner and Gerhard K. Lang</i>			
2.1 Basic Knowledge	12	2.5.5 Herpes Zoster Ophthalmicus	21
2.2 Examination Methods	13	2.5.6 Eyelid Abscess	22
2.3 Developmental Anomalies	14	2.5.7 Tick Infestation of the Eyelids	23
2.3.1 Coloboma	14	2.5.8 Louse Infestation of the Eyelids	23
2.3.2 Epicanthal Folds	14	2.5.9 Hair Follicle Mite	23
2.3.3 Blepharophimosis	14	2.6 Disorders of the Eyelid Glands	24
2.3.4 Ankyloblepharon	14	2.6.1 Hordeolum	24
2.4 Deformities	15	2.6.2 Chalazion	24
2.4.1 Ptosis Palpebrae	15	2.7 Tumors	25
2.4.2 Entropion	16	2.7.1 Benign Tumors	25
2.4.3 Ectropion	18	Ductal Cysts (Hidrocystomas)	25
2.4.4 Trichiasis	19	Xanthelasma	25
2.4.5 Blepharospasm	19	Molluscum Contagiosum	26
2.5 Disorders of the Skin and Margin of the Eyelid	19	Cutaneous Horn	26
2.5.1 Contact Eczema	19	Keratoacanthoma	26
2.5.2 Eyelid Edema	20	Hemangioma	26
2.5.3 Seborrheic Blepharitis	20	Neurofibromatosis (Recklinghausen's Disease)	27
2.5.4 Herpes Simplex of the Eyelids	21	2.7.2 Semimalignant and Malignant Tumors	28
		Basal Cell Carcinoma	28
		Squamous Cell Carcinoma	28
		Adenocarcinoma	28

Lacrimal System 32

Peter Wagner and Gerhard K. Lang

3.1 Basic Knowledge	32	3.3.2 Canaliculus	39
3.2 Examination Methods	33	3.3.3 Tumors of the Lacrimal Sac	40
3.2.1 Evaluation of Tear Formation	33	3.4 Lacrimal System Dysfunction	40
3.2.2 Evaluation of Tear Drainage	34	3.4.1 Keratoconjunctivitis Sicca	40
3.3 Disorders of the Lower Lacrimal System	34	3.4.2 Illacrimation	41
3.3.1 Dacryocystitis	34	3.5 Disorders of the Lacrimal Gland	41
Acute Dacryocystitis	37	3.5.1 Acute Dacryoadenitis	41
Chronic Dacryocystitis	38	3.5.2 Chronic Dacryoadenitis	42
Neonatal Dacryocystitis	39	3.5.3 Tumors of the Lacrimal Gland	42

4 Conjunctiva 46

Gerhard K. Lang and Gabriele E. Lang

4.1 Basic Knowledge	46	Viral Conjunctivitis	56
4.2 Examination Methods	47	Neonatal Conjunctivitis	56
4.3 Conjunctival Degeneration and Aging Changes	47	Parasitic and Mycotic Conjunctivitis	58
4.3.1 Pinguecula	47	4.4.3 Noninfectious Conjunctivitis	58
4.3.2 Pterygium	47	4.5 Tumors	61
4.3.3 Pseudopterygium	48	4.5.1 Epibulbar Dermoid	61
4.3.4 Subconjunctival Hemorrhage	48	4.5.2 Conjunctival Hemangioma	61
4.3.5 Calcareous Infiltration	48	4.5.3 Epithelial Conjunctival Tumors	62
4.3.6 Conjunctival Xerosis	49	Conjunctival Cysts	62
4.4 Conjunctivitis	49	Conjunctival Papilloma	62
4.4.1 General Notes on the Causes, Symptoms, and Diagnosis of Conjunctivitis	49	Conjunctival Carcinoma	62
4.4.2 Infectious Conjunctivitis	54	4.5.4 Melanocyte Conjunctival Tumors	63
Bacterial Conjunctivitis	54	Conjunctival Nevus	63
Chlamydial Conjunctivitis	55	Conjunctival Melanosis	64
		Congenital Ocular Melanosis	65
		4.5.5 Conjunctival Lymphoma	65
		4.5.6 Kaposi's Sarcoma	65
		4.6 Conjunctival Deposits	66

5 Cornea 68

Gerhard K. Lang

5.1 Basic Knowledge	68	5.5.1 Superficial Punctate Keratitis	81
5.2 Examination Methods	69	Keratoconjunctivitis Sicca	82
5.2.1 Slit Lamp Examination	69	5.5.2 Exposure Keratitis	82
5.2.2 Dye Examination of the Cornea	70	5.5.3 Neuroparalytic Keratitis	83
5.2.3 Corneal Topography	70	Primary and Recurrent Corneal Erosion	83
5.2.4 Determining Corneal Sensitivity	70	5.5.4 Problems with Contact Lenses	83
5.2.5 Measuring the Density of the Corneal Epithelium	70	5.5.5 Bullous Keratopathy	84
5.2.6 Measuring the Diameter of the Cornea	71	5.6 Corneal Deposits, Degeneration, and Dystrophies	84
5.2.7 Corneal Pachymetry	72	5.6.1 Corneal Deposits	85
5.2.8 Confocal Corneal Microscopy	72	Arcus Senilis	85
5.2.9 Ocular Coherence Tomography (OCT)	72	Corneal Verticillata	85
5.3 Developmental Anomalies	72	Iron Lines	85
5.3.1 Protrusion Anomalies	72	Kayser-Fleischer Ring	86
Keratoconus	72	5.6.2 Corneal Degeneration	86
Keratoglobus and Cornea Plana	74	Calcific Band Keratopathy	86
5.3.2 Corneal Size Anomalies (Microcornea and Megalocornea)	74	Peripheral Furrow Keratitis	86
5.4 Infectious Keratitis	74	5.6.3 Corneal Dystrophies	86
5.4.1 Protective Mechanisms of the Cornea	74	5.7 Corneal Surgery	88
5.4.2 Corneal Infections: Predisposing Factors, Pathogens, and Pathogenesis	75	5.7.1 Curative Corneal Procedures	88
5.4.3 General Notes on Diagnosing Infectious Forms of Keratitis	75	Penetrating Keratoplasty (PKP)	88
5.4.4 Bacterial Keratitis	75	Lamellar Keratoplasty (LKP)	89
5.4.5 Viral Keratitis	78	Phototherapeutic Keratectomy	89
Herpes Simplex Keratitis	78	5.7.2 Refractive Corneal Procedures	90
Herpes Zoster Keratitis	79	Astigmatic Keratotomy (AK)	90
5.4.6 Mycotic Keratitis	79	Radial Keratotomy (RK)	91
5.4.7 Acanthamoeba Keratitis	80	Conductive Keratoplasty (Holmium Laser Coagulation, High-Frequency Coagulation)	92
5.5 Noninfectious Keratitis and Keratopathy	81	Intacs: Intrastromal Corneal Ring Segments (ICRS) and Rod Segments	92
		Photorefractive Keratectomy (PRK)	92
		Excimer Laser Epithelial Keratomileusis (LASEK)	92
		Excimer Laser In Situ Keratomileusis (LASIK)	93
		Wavefront Correction (Aberrometry)	93
		Implanted Contact Lens (ICL)	93
		Phakic Anterior Chamber Lens	93
		Biopic (Intraocular Lens Implantation and LASIK)	94
		Clear Lens Extraction (CLE)	94

6	Sclera	96	9	Pupil	136
	<i>Gerhard K. Lang</i>			<i>Oskar Gareis and Gerhard K. Lang</i>	
6.1	Basic Knowledge	96	9.1	Basic Knowledge	136
6.2	Examination Methods	96	9.2	Examination Methods	137
6.3	Color Changes	96	9.2.1	Testing the Light Reflex	137
6.4	Staphyloma and Ectasia	96	9.2.2	Evaluating the Near Reflex	138
7	Lens	102	9.3	Influence of Pharmacologic Agents on the Pupil	138
	<i>Gerhard K. Lang</i>		9.4	Pupillary Motor Dysfunction	138
7.1	Basic Knowledge	102	9.4.1	Isocoria with Normal Pupil Size	140
7.2	Examination Methods	104		Relative Afferent Pupillary Defect	140
7.3	Developmental Anomalies of the Lens	104		Bilateral Afferent Pupillary Defect	140
7.4	Cataract	105	9.4.2	Anisocoria with a Dilated Pupil in the Affected Eye	140
7.4.1	Acquired Cataract	106		Complete Oculomotor Palsy	140
	Senile Cataract	106		Tonic Pupil	140
7.4.2	Cataract in Systemic Disease	109	10	Glaucoma	144
7.4.3	Complicated Cataracts	110		<i>Gerhard K. Lang</i>	
7.4.4	Cataract after Intraocular Surgery	111	10.1	General Introductory Remarks	144
8	Uveal Tract (Vascular Layer)	124	10.2	Basic Knowledge	144
	<i>Gabriele E. Lang and Gerhard K. Lang</i>		10.3	Examination Methods	145
8.1	Basic Knowledge	124	10.3.1	Oblique Illumination of the Anterior Chamber	145
8.1.1	Iris	124	10.3.2	Slit Lamp Examination	146
8.1.2	Ciliary Body	125	10.3.3	Gonioscopy	147
8.1.3	Choroid	125	10.3.4	Measuring Intraocular Pressure	147
8.2	Examination Methods	125	10.3.5	Optic Disc Ophthalmoscopy	151
8.3	Developmental Anomalies	126	10.3.6	Visual Field Testing	152
8.3.1	Aniridia	126	11	Vitreous Body	174
8.3.2	Coloboma	126		<i>Christoph W. Spraul and Gerhard K. Lang</i>	
8.4	Pigmentation Anomalies	127	11.1	Basic Knowledge	174
8.4.1	Heterochromia	127	11.2	Examination Methods	175
8.4.2	Albinism	128	11.3	Aging Changes	175
			11.3.1	Synchysis	175
			11.3.2	Vitreous Detachment	175
6.5	Trauma	96	10.3.7	Examination of the Retinal Nerve Fiber Layer	152
6.6	Inflammations	97	10.4	Primary Glaucoma	153
6.6.1	Episcleritis	97	10.4.1	Primary Open Angle Glaucoma	153
6.6.2	Scleritis	97	10.4.2	Primary Angle Closure Glaucoma	164
7.4.5	Traumatic Cataract	111	10.5	Secondary Glaucomas	168
7.4.6	Toxic Cataract	111	10.5.1	Secondary Open Angle Glaucoma	168
7.4.7	Congenital Cataract	112	10.5.2	Secondary Angle Closure Glaucoma	168
	Hereditary Congenital Cataracts	112	10.6	Childhood Glaucomas	169
	Cataract from Transplacental Infection in the First Trimester of Pregnancy	113			
7.4.8	Treatment of Cataracts	113			
	Medication	113			
	Surgical Treatment	113			
	Secondary Cataract	117			
	Special Considerations in Cataract Surgery in Children	119			
7.5	Lens Dislocation	120	11.4	Abnormal Changes in the Vitreous Body	177
8.5	Inflammation	128	11.4.1	Persistent Fetal Vasculature (Developmental Anomalies)	177
8.5.1	Acute Iritis and Iridocyclitis	128		Mittendorf's Dot	177
8.5.2	Chronic Iritis and Iridocyclitis	131		Bergmeister's Papilla	177
8.5.3	Choroiditis	131		Persistent Hyaloid Artery	177
8.5.4	Sympathetic Ophthalmia	132		Persistent Hyperplastic Primary Vitreous (PHPV)	177
8.6	Neovascularization in the Iris: Rubeosis Iridis	132			
8.7	Tumors	134			
8.7.1	Malignant Tumors (Uveal Melanoma)	134			
8.7.2	Benign Choroidal Tumors	134			

11.4.2	Abnormal Opacities of the Vitreous Body	178
	Asteroid Hyalosis	178
	Synchysis Scintillans	178
	Vitreous Amyloidosis	179
11.4.3	Vitreous Hemorrhage	179
11.4.4	Vitreitis and Endophthalmitis	180
11.4.5	Vitreoretinal Dystrophies	182
	Juvenile Retinoschisis	182
	Wagner's Disease	182

12 Retina

Gabriele E. Lang and Gerhard K. Lang

12.1	Basic Knowledge	188
12.2	Examination Methods	191
12.2.1	Visual Acuity	191
12.2.2	Examination of the Fundus	191
12.2.3	Normal and Abnormal Fundus Findings in General	194
12.2.4	Color Vision Deficiencies and Testing	196
12.2.5	Electrophysiologic Examination Methods	197
12.3	Vascular Disorders	198
12.3.1	Diabetic Retinopathy	198
12.3.2	Retinal Vein Occlusion	201
12.3.3	Retinal Artery Occlusion	203
12.3.4	Hypertensive Retinopathy and Sclerotic Changes	206
12.3.5	Coats's Disease	206
12.3.6	Retinopathy of Prematurity	208
12.4	Degenerative Retinal Disorders	208
12.4.1	Retinal Detachment	208
12.4.2	Degenerative Retinoschisis	211
12.4.3	Peripheral Retinal Degenerations	212
12.4.4	Central Serous Chorioretinopathy	213

13 Optic Nerve

Oskar Gareis and Gerhard K. Lang

13.1	Basic Knowledge	232
13.1.1	Intraocular Portion of the Optic Nerve: Optic Disc	232
13.1.2	Intraorbital and Intracranial Portions of the Optic Nerve	234

11.5 The Role of the Vitreous Body in Various Ocular Changes and after Cataract Surgery

11.5.1	Retinal Detachment	182
11.5.2	Retinal Vascular Proliferation	182
11.5.3	Cataract Surgery	183

11.6 Surgical Treatment: Vitrectomy

		183
		188

12.4.5	Age-Related Macular Degeneration	214
12.4.6	Degenerative Myopia	217

12.5 Retinal Dystrophies

12.5.1	Macular Dystrophies	218
	Stargard's Disease	218
	Best's Vitelliform Dystrophy	219
12.5.2	Retinitis Pigmentosa	220

12.6 Toxic Retinopathy

12.7 Retinal Inflammatory Disease

12.7.1	Retinal Vasculitis	222
12.7.2	Posterior Uveitis due to Toxoplasmosis	223
12.7.3	AIDS-Related Retinal Disorders	224
12.7.4	Viral Retinitis	224
12.7.5	Retinitis in Lyme Disease	225
12.7.6	Parasitic Retinal Disorders	225

12.8 Retinal Tumors and Hamartomas

12.8.1	Retinoblastoma	226
12.8.2	Astrocytoma	227
12.8.3	Hemangiomas	228

13.2 Examination Methods

13.3 Disorders That Obscure the Margin of the Optic Disc

13.3.1	Congenital Disorders that Obscure the Margin of the Optic Disc	234
	Oblique Entry of the Optic Nerve	234
	Tilted Disc	234
	Pseudopapilledema	235
	Myelinated Nerve Fibers	235
	Bergmeister's Papilla	236
	Optic Disc Drusen	236
13.3.2	Acquired Disorders That Obscure the Margin of the Optic Disc	236
	Papilledema	237
	Optic Neuritis	239
	Anterior Ischemic Optic Neuropathy (AION)	241
	Infiltrative Optic Disc Edema	243

14 Visual Pathway

Oskar Gareis and Gerhard K. Lang

14.1	Basic Knowledge	248
14.2	Examination Methods	249
14.3	Disorders of the Visual Pathway	249

15 Orbital Cavity

Christoph W. Spraul and Gerhard K. Lang

15.1	Basic Knowledge	258
15.2	Examination Methods	259
15.3	Developmental Anomalies	261
15.3.1	Craniofacial Dysplasia	261
	Craniostenosis	261
15.3.2	Mandibulofacial Dysplasia	262
	Oculoauriculovertebral Dysplasia	262
	Mandibulofacial Dysostosis	262
	Oculomandibular Dysostosis	262
	Rubinstein-Taybi Syndrome	262
15.3.3	Meningoencephalocele	262
15.3.4	Osteopathies	262
15.4	Orbital Involvement in Autoimmune Disorders: Graves's Disease	262
15.5	Orbital Inflammation	263
15.5.1	Orbital Cellulitis	263
15.5.2	Cavernous Sinus Syndrome	265
15.5.3	Orbital Pseudotumor	265
15.5.4	Myositis	266
15.5.5	Orbital Periostitis	266

13.4 Disorders in Which the Margin of the Optic Disc is Well Defined

13.4.1	Atrophy of the Optic Nerve	243
	Special Forms of Atrophy of the Optic Nerve	245
13.4.2	Optic Nerve Pits	246
13.4.3	Optic Disc Coloboma (Morning Glory Disc)	246

13.5 Tumors

13.5.1	Intraocular Optic Nerve Tumors	246
13.5.2	Retrobulbar Optic Nerve Tumors	246

		248
--	--	-----

14.3.1	Prechiasmal Lesions	251
14.3.2	Chiasmal Lesions	251
14.3.3	Retrochiasmal Lesions	253
14.3.4	Ocular Migraine	254

		258
--	--	-----

15.5.6	Mucocele	266
15.5.7	Mycoses (Mucormycosis and Aspergillomycosis)	266

15.6 Vascular Disorders

15.6.1	Pulsating Exophthalmos	266
15.6.2	Intermittent Exophthalmos	267
15.6.3	Orbital Hematoma	267

15.7 Tumors

15.7.1	Orbital Tumors	267
	Hemangioma	267
	Dermoid and Epidermoid Cyst	268
	Neurinoma and Neurofibroma	268
	Meningioma	268
	Histiocytosis X	268
	Leukemic Infiltrations	268
	Lymphoma	268
	Rhabdomyosarcoma	268
15.7.2	Metastases	269
15.7.3	Optic Nerve Glioma	269
15.7.4	Injuries	269

15.8 Orbital Surgery

		269
--	--	-----

16 Optics and Refractive Errors 272

Chhstoph W. Spraul and Gerhard K. Lang

16.1 Basic Knowledge 272	16.5 Correction of Refractive Errors 286
16.1.1 Uncorrected and Corrected Visual Acuity 272	16.5.1 Eyeglass Lenses 286
16.1.2 Refraction: Emmetropia and Ametropia 272	Monofocal Lenses 286
16.1.3 Accommodation 273	Multifocal Lenses 287
16.1.4 Adaptation to Differences in Light Intensity 275	Special Lenses 288
16.2 Examination Methods 275	Subjective Refraction Testing for Eyeglasses 288
16.2.1 Refraction Testing 275	16.5.2 Contact Lenses 289
16.2.2 Testing the Potential Resolving Power of the Retina in the Presence of Opacified Ocular Media 277	Advantages and Characteristics of Contact Lenses 289
16.3 Refractive Anomalies 277	Disadvantages of Contact Lenses 291
16.3.1 Myopia (Shortsightedness) 277	16.5.3 Prisms 291
16.3.2 Hyperopia (Farsightedness) 280	16.5.4 Magnifying Vision Aids 291
16.3.3 Astigmatism 282	16.6 Aberrations of Lenses and Eyeglasses 292
16.3.4 Anisometropia 284	16.6.1 Chromatic Aberration (Dispersion) ... 292
16.4 Impaired Accommodation 285	16.6.2 Spherical Aberration 292
16.4.1 Accommodation Spasm 285	16.6.3 Astigmatic Aberration 292
16.4.2 Accommodation Palsy 286	16.6.4 Distortion 293

17 Ocular Motility and Strabismus 296

Joachim Esser, Doris Recker, and Gerhard K. Lang

17.1 Basic Knowledge 296	Diagnosis of Infantile Strabismic Amblyopia (Preferential Looking Test) 306
17.2 Concomitant Strabismus 300	17.2.3 Treatment of Concomitant Strabismus 306
17.2.1 Forms of Concomitant Strabismus 302	Eyeglass Prescription 306
Esotropia 302	Treatment and Avoidance of Strabismic Amblyopia 307
Accommodative Esotropia 303	Surgery 307
Exotropia 304	17.3 Heterophoria 308
Vertical Deviations (Hypertropia and Hypotropia) 304	17.4 Pseudostrabismus 309
17.2.2 Diagnosis of Concomitant Strabismus 305	17.5 Ophthalmoplegia and Paralytic Strabismus 309
Evaluating Ocular Alignment with a Focused Light 305	17.5.1 Etiology and Forms of Ocular Motility Disorders 310
Diagnosis of Unilateral and Alternating Strabismus (Unilateral Cover Test) 305	17.5.2 Forms of Eye Movement Disorders.... 310
Measuring the Angle of Deviation (Prism Cover test) 305	
Determining the Type of Fixation 306	
Testing Binocular Vision 306	

17.5.3 Symptoms of Ocular Motility Disorders 310	17.5.6 Differential Diagnosis 315
17.5.4 Ocular Muscle Paralysis Caused by Cranial Nerve Damage 313	17.5.7 Treatment of Ophthalmoplegia and Myogenic Motility Disorders 315
17.5.5 Diagnosis of Ocular Motility Disorders 314	17.6 Nystagmus 316

18 Ocular Trauma 318

Gerhard K. Lang

18.1 General Introductory Remarks 318	18.4.7 Blow-Out Fracture 325
18.2 Examination Methods 318	18.4.8 Open-Globe Injuries 326
18.3 Classification of Ocular Injuries by Mechanism of Injury 318	18.4.9 Impalement Injuries in the Orbit 327
18.4 Mechanical Injuries 319	18.5 Chemical Injuries 328
18.4.1 Eyelid Injury 319	18.6 Injuries Due to Physical Agents 331
18.4.2 Injuries to the Lacrimal System 319	18.6.1 Ultraviolet Keratoconjunctivitis 331
18.4.3 Conjunctival Laceration 320	18.6.2 Burns 331
18.4.4 Corneal and Conjunctival Foreign Bodies 321	18.6.3 Radiation Injuries (Ionizing Radiation) 332
18.4.5 Corneal Erosion 322	18.7 Indirect Ocular Trauma 332
18.4.6 Blunt Ocular Trauma (Ocular Contusion) 325	18.7.1 Purtscher's Retinopathy 332
	18.7.2 High-Altitude Retinopathy 332

19 Cardinal Symptoms 336

Stefan Lang and Gerhard K. Lang

20 Appendix 350

20.1 Topical Ophthalmic Preparations 350	20.5 Clinical Images and Examples 356
20.2 Nonophthalmic Preparations with Ocular Side Effects 351	20.5.1 Clinical Images and Corresponding Optical Coherence Tomography (OCT) Images in Retinal Diseases 356
20.3 Ocular Symptoms of Poisoning 354	20.5.2 Typical Visual Field Defects in Certain Diseases 360
20.4 Standard Values and Reference Dimensions in Ophthalmology 355	

21 Glossary 364
