<b>Introduction</b>	ix
<b>1 Definitions of lower urinary tract dysfunction</b>	1
Symptoms	1
Bladder Storage Symptoms	2
Urinary Incontinence Signs	3
Urodynamic Diagnoses	3
Summary	3
References	4
<b>2 Epidemiology</b>	5
Summary	6
References	6
<b>3 Pathophysiology</b>	8
Introduction	8
Detrusor Overactivity	8
Muscarinic Receptors	8
Pathophysiology	9
Pathogenesis of Detrusor Overactivity	10
Summary	12
References	12
<b>4 Assessment and investigation</b>	15
Introduction	15
Symptoms and Signs	15
Quality of Life	15
Investigations	18
Urodynamic Investigations	18
Conclusion	25
References	25

<b>5 Conservative management of OAB</b>	27
Introduction	27
General Management	27
Behavioural Intervention	28
Conclusion	30
References	31
<b>6 Pharmacological therapy</b>	33
Introduction	33
Drugs with Mixed Action	33
Antimuscarinic Drugs	35
Anti-Depressants	41
Anti-Diuretic Agents	41
$\alpha$ -Adrenoceptor Antagonists	42
Oestrogens in the Management of Overactive Bladder	43
New Developments	44
Conclusion	45
References	45
<b>7 Management of refractory overactive bladder</b>	51
Introduction	51
Botulinum Toxin	51
Intravesical Therapy	52
Neuromodulation	53
Conclusion	57
References	57
<b>8 Reconstructive surgery</b>	59
Introduction	59
Clam Cystoplasty	59
Detrusor Myectomy	60
Urinary Diversion	60
Conclusion	60
References	60
