<b>Section 1: Obstetrics</b>	<b>1</b>
<b>1 How to learn obstetric scanning</b>	<b>3</b>
1.1 The machine and its controls	4
1.2 Imaging artefact	1 1
1.3 Ergonomics	13
1.4 Your training schedule	14
1.5 Log your cases	16
1.6 Reporting your findings	17
<b>2 Early pregnancy</b>	<b>19</b>
2.1 The viable pregnancy	20
2.2 The non-viable pregnancy	26
2.3 Ectopic pregnancy	34
2.4 Multiple pregnancy	38
2.5 Molar pregnancy	43
2.6 Nuchal translucency	46
2.7 Fetal abnormalities	49
2.8 Associated findings	57
<b>3 The detailed anomaly scan</b>	<b>67</b>
3.1 The head	69
3.2 The spine	81
3.3 The chest	89
3.4 The abdominal wall and contents	99
3.5 The limbs	112
3.6 Soft markers	116

<b>4</b>	<b>The cervix, placenta and amniotic fluid</b>	<b>119</b>
4.1	The cervix	120
4.2	Placental morphology	122
4.3	Antepartum haemorrhage	126
4.4	Assessment of amniotic fluid	138
<b>5</b>	<b>Fetal growth and assessment</b>	<b>145</b>
5.1	Indications	146
5.2	Normal growth	147
5.3	Your growth scan	148
5.4	Measurements and clinical interpretation	152
5.5	Macrosomia	155
5.6	Intrauterine growth restriction	156
5.7	Doppler	159
5.8	Biophysical profile	169
5.9	Multiple pregnancy	171
<b>6</b>	<b>Invasive procedures</b>	<b>177</b>
6.1	Technique	178
6.2	Amniocentesis	181
6.3	Chorion biopsy	188
6.4	Fetal blood sampling	192
6.5	Intracardiac injection	194
6.6	Other procedures	197
	<b>Section 2: Gynaecology</b>	<b>199</b>
<b>7</b>	<b>How to undertake a gynaecological scan</b>	<b>201</b>
7.1	Preparing the patient and yourself	202
7.2	The transabdominal scan	205
7.3	The transvaginal scan	208
7.4	Reporting your findings	213
<b>8</b>	<b>The uterus</b>	<b>215</b>
8.1	Physiological changes in the endometrium during the menstrual cycle	216
8.2	Normal uterine appearance	218
8.3	Normal endometrial appearance	221

8.4	Abnormal endometrial appearance	224
8.5	Abnormal myometrial appearance	229
8.6	Intrauterine contraceptive devices	234
8.7	The cervix	236
<b>9</b>	<b>The ovaries</b>	<b>239</b>
9.1	Physiological changes seen in the ovary	240
9.2	Normal ovarian appearance	243
9.3	Functional cysts	244
9.4	Polycystic ovaries	245
9.5	Abnormal ovarian appearance - benign or malignant?	247
<b>10</b>	<b>The use of ultrasound for fertility problems</b>	<b>259</b>
10.1	Investigation	260
		263
10.2	Assisted conception	265
	<b>Further reading</b>	<b>265</b>
	<b>Index</b>	<b>267</b>
